Our Mission

Our mission at AgerWorld is to provide a beacon of reliability and innovation in the rapidly evolving landscape of Forex trading. We are committed to equipping our users with tailored investment opportunities.

Our platform evolves with the ever-changing industry, ensuring that AgerWorld remains the essential difference-maker in your trading journey.

Multiple Investment Opportunities

Agerworld offers tailored investment opportunities through meticulously structured trading plans that align with users' unique financial aspirations and risk appetites. Within the ever-changing landscape of forex trading, this platform shines by delivering a pioneering and impactful trading environment. Agerworld offers various trading packages with different daily return earnings.

Trade Volume & Profits

Trading Forex on AgerWorld is all about generating profit out of multiple trading opportunities. Higher your trading volume, higher will be your daily trading profits on the platform. Your daily trading profit reciprocates the minimum trading volume.

The more you trade on the platform, the more you earn as daily trade profits. Your daily trading profits is allocated as the per the designated trade volume in the table below:

Trading Volume	Daily Trading Profits
Min 50 \$ - 100,000 \$	0.5 - 1.8 %

Business Plan Overview

Agerworld trading packages follow two investor-centric trading business plans that ensure alignment between the user's success and the platform's:

Principal and ROI% Return Package

AgerWorld's Forex trading platform is investor-centric and we ensure traders succeed when they invest in trade on the platform.

Our business plan is designed to allow traders earn profit of up to 300 % of their IT Personal Fund. The package automatically closes when profits reach 300%. Additionally, users receives a minimum of 13% (the average of 18%) in trading profits, a combination of principal and return.

Forex market.

Income Process

Agerworld follows various income processes within the platform:

PAMM

The platform allows forex brokers or brokerage firms to manage multiple forex trading accounts using their capital to generate profits.

Profit Distribution

A percentage of the total trade profit generated by Forex brokers or brokerage firms is distributed among other IT trading fund owners, fairly divided based on their trading fund.

Affiliates Income

A certain profit percentage is allocated to affiliates, acknowledging their contributions and encouraging their active participation.

IT Commission

The IT Commission operates on a dynamic 10-level system that amplifies your earning potential based on your team's daily trading profits.

As you progress through each level, you unlock increasingly substantial rewards of 53% based on a percentage of the daily trading profits generated by your team across all 10 levels.
